Security Solutions reduce Mining Fraud

By Jane B. Mansaray

The Ministry of Mines and Geology has announced that Brinks Global Services, a private and newly established company, has been engaged by Strategic Security Solutions Limited (3SL) to provide security services to the mining industry.

The 3SL company is a subsidiary of Brinks Global Services, a multinational security and logistics company. The company has been engaged by 3SL to provide security services to the mining industry, including the transportation of minerals and the protection of mining sites.

The Ministry of Mines and Geology has expressed its confidence in the 3SL company and its ability to provide high-quality security services to the mining industry. The company is expected to start its operations in the near future.

Brinks Global Services Engages Journalists

By Jane B. Mansaray

In a bid to avoid fraud, a private and a newly established company called Brinks Global Service with accredited subcontractors of Strategic Security Solutions Limited referred to as (3SL) yesterday engaged journalists at a press briefing on their operations in Sierra Leone.

Strategic Security Solutions Limited is a

the logistical value chain, from raw materials and components to finished products within the mining and minerals industries worldwide.

Speaking to a cross section of journalists at his second floor office building at No. 16 Percival Street in Freetown, the Chief Executive Officer and Managing

premier private agency provider that is based in the United States of America and specialized in securing logistics and security solutions in more than one hundred and twenty two countries across five continents.

He said Brinks is in Sierra Leone with the right (3SL) company in providing international standards of shipping operation with high level of security solutions in Sierra Leone.
